The all new Zoot City is a great Scooter for first time riders. A low centre of gravity and a shorter wheelbase make this Scooter very easy to manoeuvre and balance. Perfect for commuting to work or Uni, then doing the shopping or meeting friends for a coffee. No more hunting for a park or getting stuck in traffic.

Cheap to run, customers are telling us they travel over 200km on one 5.5L tank. Now that's real world economical! Plenty of storage under the seat & below the handle bars with a shopping bag hook and glove compartment all standard.

Optional carry rack is available to turn your fun runabout into a parcel delivery vehicle or earn some extra cash at nights, delivering pizzas or fast food.
